Comments:

With proper monitoring & remediation plans being first & foremost, then this project can provide much needed jobs & economic improvement to our area. Excelsior is and has been a very good organization with both their precautionary measures, plans, and efforts & with being a good neighbor. They have supported many groups, organizations, and causes for many years. With all that being said, our organization supports this project with the understanding that all precautionary measures are being adhered to

Thank you,

Mahlon MacKenzie
